MORE TALK ON THE DREADED BOLL WEEVIL BY A MAN WHO KNOWS WHAT THEY DO

INTERESTING ADDRESS BY C. R. BYRNES OF NATCHEZ, MISS. ABOUT HOW TO PREPARE FOR THE COMING OF THE PEST. Advises to Cut the Crop of Cotton This Year and Next.

First place you can get no better advice than that given by the first expert on boll weevils I have tested and I know from experience. The boll weevil means destruction of our cotton crop. We must consider this problem under the two heads: Cotton and Diversification.

area of cultivation today the plan outlined by the Agricultural Department is not only represented in the boll weevil district. Diversification in my opinion requires more consideration along educational lines than cotton, we have been and are on cotton and know little about other crops.

WHOSE MILD MOUTH IS THIS?

At the court of the 1st and 2nd

there is a mild mouth of iron

afford to let it fall, and
it is a mild mouth of iron.

ed side walks there and a look like
it is up to the city to do something
for it.
A few days ago some children were
kicking against the mild mouth on the
condition of the steel iron which is
opposite to this mild mouth. The railroad
company of iron that steel pipe

and after it with the mild mouth. In
the mild mouth its own account
has left this mild mouth. In such a
way that it does not drain and the
water that runs in this mild mouth is
able to do damage as well as iron.

there and live there. And then,
little children have to be kept in
side as it is dangerous for them, if
they can swim.
If the street committee of the
council will go up there a plan
could be worked out to do it.
